

InfoTrack **Telematics**

A Premiere Telematics Services Company

A Group Company of FIG, Japan

WELCOME MESSAGE

InfoTrack Telematics Pvt Ltd., a company with more than two decades of experience with a clear and strong presence in location based IT enabled services and IoT market.

InfoTrack's Telematics Solutions consists of the application based on the wireless technology, ingenious infrastructure and proven methodologies with the objective of providing unsurpassed location intelligence solutions to our esteemed customers addressing the requirements in various vertical Domains.

In the year 2013, InfoTrack joined hands with Zenrin Data Com (ZDC) Tokyo, Japan to grow big in terms of size, technology and financial strengths. Subsequently in 2016, InfoTrack collaborated with Mobile Create, part of FIG (Future Innovation Group), Oita, Japan-based Telematics Services, first listed in Tokyo market PRIME. With this new associations, InfoTrack is further geared up to penetrate to new geographical areas as well as enhance the R&D spending significantly thus improving the product quality, increase product offerings and use state of art technologies. We go forward beyond the customer expectation with well-differentiated/sophisticated services.

Kazuhiko Kudo
Managing Director
